

Porsche 356 C 1600

1964

Highlights

- ✓ Ready for immediate use
- ✓ Beautiful optical and technical condition
- ✓ Italian history

We are delighted to be able to offer you this beautiful Porsche 356 C. The signal red coupé is in excellent optical and technical condition and can be used on the road immediately.

Delivered in Italy, the car was kept there until 2013 before being imported to Germany in the same year and has been in second-hand ownership ever since. The Italian vehicle documents are still available. In the summer of 2024, more than €10,000 was invested in the vehicle so that the 356 is ready for immediate use without any major investments.

The Porsche 356 C was produced from 1963 to 1965 and was the last expansion stage of the legendary 356 series. It was characterised by disc brakes on all four wheels, which was a significant improvement on its predecessors.

Visually, the model remained true to the classic design, but was given detailed improvements such as new hubcaps and modified bumpers. Today, the 356 C is considered a coveted classic and marked the end of Porsche's first sports car era before the 911 entered the scene.

Viewings and test drives are of course possible at any time by prior appointment. The vehicle is being sold privately by us on behalf of a customer. Subject to errors and prior sale.

95.000 €

Price (VAT not deductible)

Viewings and test drives are possible at any time by appointment.
