We are pleased to offer you a beautiful and well-maintained 1989 Porsche 928 S4. Delivered in June 1989 from the Porsche Centre in Nuremberg, the car has had just three previous owners over the past 37 years or so, in Nuremberg, Worms and, most recently, Schwäbisch Gmünd.

The original owner's handbook, complete with the original service booklet documenting the car's delivery and maintenance history, is present in full. The 928 has been owned by its current owner since 2021, who has since invested a good €30,000 in the car's mechanics. All service and repair invoices from recent years – all issued by the Porsche Centre in Schwäbisch Gmünd – are available and document the extent of the investment. The car is therefore in excellent condition, both visually and mechanically. The speedometer appears to have been replaced at some point, which is why the mileage shown on the speedometer differs from the actual mileage.

In addition to its fine service history, the car boasts excellent features, such as adjustable seat heating, pleated leather upholstery and an electric sunroof. The slate-grey paintwork, combined with the beige leather seats, gives the car a classic yet very elegant look. The car also currently holds the Porsche Classic Card Heritage.

All in all, a wonderfully authentic, beautiful and reliable car, which is now waiting here with us for its next happy owner.
