Porsche Boxster

1998

Highlights

- 2.5-litre / manual
- First delivery in Switzerland
- in very good condition
- low mileage
- Eisenmann exhaust system

We are offering you a beautiful and well-maintained first-generation Porsche Boxster Type 986.

The vehicle was delivered to its first owner on 3 March 1998 by Porsche Garage Käsermann AG in Büren, Switzerland. The original owner's folder, containing all operating instructions and manuals, as well as the original service booklet, is included. Also included is the emissions maintenance document, which is important for the car's Swiss history and certifies that the vehicle has been consistently maintained and kept in good working order over the past decades.

The Arctic Silver metallic paintwork, combined with the black and very well-preserved leather interior, makes for a very classic and fitting colour combination for the Boxster. The number of previous owners in Switzerland cannot be determined with 100 per cent certainty from the vehicle documents. Based on the entries in the service history books, the Boxster is thought to have had three owners in Switzerland before the vehicle was imported into Germany in March 2025 and registered here to its most recent owner to date. The Boxster therefore has valid German registration documents and a valid TÜV certificate. Among other things, the fitted wheels and the installed H&R springs are listed.

The mileage of just under 71,000 km is also verifiable from the service records. There are no signs of any major previous damage. The rear and bonnet still have their original paintwork, whilst the side panels (doors and wings) suggest they have been repainted slightly, though there are no areas where body filler has been used. It therefore appears that there has been no major accident damage.

Generally speaking, with the exception of minor modifications (wheels, suspension etc.), in a very fine and original condition, meaning the car will definitely be eligible for the 'H' registration in March 2028 – making it an absolute classic of the future and perfect for both newcomers to the classic car world and seasoned connoisseurs.

The 204 PS from the 2.5-litre mid-engine, combined with the sporty manual gearbox, are definitely more than sufficient for any situation and combine the pure, open-top Porsche sports car experience with a very attractive purchase price.

The car is available for viewing at our premises by prior appointment. We look forward to hearing from you!

19.700 €

Price (VAT not deductible)

Viewings and test drives are possible at any time by appointment.
