The car was delivered on 1 August 2023 at the Porsche Centre Stuttgart and has been with a single owner ever since. The VAT is still deductible.

The last service at the Stuttgart Porsche Centre was carried out on 11 July 2025, when the car had covered 10,497 km.

The entire front of the car was fully covered with paint protection film immediately after delivery. The paintwork is therefore in immaculate condition.

Limited to just 2,500 units worldwide, the 992 Dakar is more than just a rare collector's item – it is a vehicle built for the great outdoors. With off-road DNA through and through – yet still unobtrusive for everyday use.
